

TRINITY COUNTY AMATEUR RADIO CLUB NEWSLETTER

APRIL 2006

CLUB ADDRESS: P.O. BOX 2283, WEAVERVILLE, CA 96093

NEXT CLUB MEETING

The next club meeting will be held at Trinity County Office of Education on Saturday, April 15th, at noon. The ECU will be on the site. We will order out for pizza. Focus will be on how to set up the ECU for use. Leaders helping with this will KB6YTD Robert, N6TKY Jim, and ND6T Don. Some folks can be eating while others are learning how to set up the ECU, and then take their turn in the ECU while the other group eats. This should give everyone a chance to become familiar with learning the set-up process.

This should be a very interesting time for all of us, so plan on being there. We will conduct some business, including a presentation by the nominating committee of a slate of officers to serve for the next year beginning July 1st.

The May meeting will consist of a dinner/lunch out, which will be a treat, at which time election of new officers will take place. Stay tuned for more word on this.

REPEATERS!

This has been a long, wet winter, however, recently the BIG thaw appears to be setting in. The 73 repeater on Hayfork Bally is ID-ing some again, and did put out a signal good enough to help some in last Thursday's net. By the way,

it sure is good to hear more folks on the net, keep it up!! Haven't heard a sound out of the 925 on Bully Choop, but you can just imagine how much snow is up there on that site. KB6YTD and N6TKY have experimented relaying from the HF frequency to the two-meter, and being heard!! If you did not hear it, you missed out. Stay tuned!

The repeater installed recently at the home QTH of W6BVC Tom on Oregon Mtn has been interesting also. (146.880Mhz-85.4). NTKY and I can make contact with folks in Weaverville on that frequency, so give it a try.

We are anxious to return to Corral Bottom and hopefully contact the Oregon Mtn repeater from there.

ALSO - be sure to read the attached minutes. The call is being put out for folks to serve at the June Trail Ride event at Indian Valley. Plan on going, you cannot find a more beautiful place than that spot! And it is a lot of fun.

Keep in touch, and send news!!
